

Consultations

General consultations are subject to a \$250 fee which is due at the time of visit. As a courtesy for patients interested in pre-planned surgical/non-surgical procedures such as Liposuction, our office offers free consultations with our medical staff and physician associates to determine if an individual is a candidate for each specific technique. Our medical staff will discuss the relative procedure in detail and answer any common questions. If you are a candidate, Dr. Frank will answer any additional questions and review a surgical plan at no charge. *Please be aware that the discussion of any treatments, treatment options, or medical/cosmetic issues other than ones specified above is considered a general consultation.* **The consult fee will be credited** towards procedures that are performed in our office. Consult fees are due *prior* to the visit with the doctor. Please be advised that **we do not accept personal checks** on initial visit.

Packages are available at approximately a 10% discount for procedures that require several treatments.

Thank you for your understanding in this manner.

I have read and understand the above declaration.
