Dr. Paul Frank

The Total Body Audit!

YOUTH DIAGNOSTICS

Gauge your true age to figure out how many years you need to peel off with Fifth Avenue favorite Dr. Paul Frank's Youth Diagnostics system, a sophisticated and non-invasive set of physical and cognitive tests that measure how well you're weathering the test of time. The tests, which Dr. Frank developed earlier this year along with internal specialist Dr. Grant Macaulay, run the gamut from cataloging sun damage to measuring spatial awareness. "You can't turn back the clock until you figure out how fast it's ticking," says Frank. Employing algorithms developed by Stanford University researchers—"There is real science behind it," says Frank—the program culminates with a 30-page report on your health status, along with a consultation about the best way forward. "I have the body of a 29-year-old, and I'm 42," Frank says. Age ain't nothing but a number.

THE DETAILS: Full set of tests and consultation, \$2,500, Dr. Paul Frank, 1049 Fifth Ave., Ste. 2B, (212) 327-2919
