The BODY: The Watermill Center Annual Summer Benefit

Earlier this summer, The Watermill Center hosted the BODY: The Watermill Center Annual Summer Benefit, which celebrated art and creative experimentation in support of the organization's year-round artist residency and education programming. The 2023 summer benefit centered on the body's role in art-making and featured exhibitions, performances and a once-in-a-lifetime showing of **Robert Wilson's "UBU."**
